NEXTANIA AGENT • STEP-BY-STEP GUIDE

Create Your Business Chatbot

Build an AI chatbot trained on your own business, then share it and track results from one dashboard.

Follow these steps

1. Go to **https://agent.nextania.in/**
2. Give your **Email ID** and **Business Name**.
3. Check your email for the **activation key**.
4. Paste the key and your email ID. Click **"Activate"**.
5. Upload your business-related documents, websites and all the materials you have about your business.
6. Give a name, choose a brand colour and add your logo. Click **"Generate"**.
7. Scroll down. You will find the **Chatbot Link** and the **Dashboard Link**.
8. Your agent is live. Copy the chat link and share it with others. See their chats and your business performance from your personalised dashboard.

TIP

The more material you upload in step 5, the better your chatbot answers. Add FAQs, price lists, service details and your website link.
